

Cook in a cool Kitchen

All the heat is concentrated where it is needed—keeps you cool and makes for better cooking

NEW PERFECTION OIL COOK-STOVE

Why not cook with a modern oil stove this summer and be comfortable? Bakes, broils, roasts, toasts. More efficient than your wood or coal stove, and costs less to operate.

Better cooking because the long blue chimneys give steadier, more evenly distributed heat, under perfect control—like gas. No smoke or smell. In 1, 2, 3 and 4-burner sizes, ovens separate. Also cabinet models with Fireless Cooking Ovens.

After he has completed the concrete foundation, the old Baptist church, recently purchased by the city, will be moved by Mr. Cox to the corner of Willow and Gale street where it will be remodeled and put in proper shape for the reception of the city fathers and will hereafter be the home of Heppner's law making body.

When you need two-vision lenses—be sure to get KRYPTOK LENSES

(Worn by over 250,000 people)

For in all other two-vision lenses there is a line or seam between the near and far vision portions that makes the wearer look less than his best, and unmistakably brands him or her with a sign of age.

Kryptok are double-vision lenses that look exactly like regular one-vision lenses because there are no lines or seams in them.

Dr. Winnard can supply these lenses
